

Bill Lyons Candidate Statement

I recently retired and would like to contribute my time and talents to Keep Berkeley Lake Great.

We are facing many changes going forward that will require innovative approaches to complex issues and the ability to work across multiple agencies. In my 50 year career in the steel business, I have used innovative and out of the box solutions and worked across multiple disciplines to address complicated challenges.

I have lived in Berkeley Lake for 8 years. I have served as Vice President and President of the Berkeley Lake HOA. During that time we employed new technologies and security measures to keep our properties safe.

I previously served as the President of the Bellingrath Commons HOA in Johns Creek where we successfully dealt with wildlife management issues.

I am excited to have this opportunity to be part of the Berkeley Lake team and I humbly ask for your support.
